## Title of Lecture

Common Mistakes with Aesthetic Composite Restorations & How to Fix Them

2011-2016 Bachelor of Dental Surgery -  
University College Cork, Ireland

Tutor at National University of Singapore, Faculty of Dentistry

Dental Surgeon at Dental Forte

Member of the Aesthetic Dentistry Society Singapore (ADSS)

Committee Member of the College  
of General Dental Practitioners Singapore (CGDP)

## Summary

More people are looking for aesthetic solutions for their smile with minimal tooth preparation, and composites happen to be one of the most versatile materials available that can give you beautiful results with minimal compromise to the tooth structure.

However, failure to properly understand the limitations of the material and poor handling of the materials can sometimes lead to less than satisfactory results.

Through this lecture, we will discuss common problems and solutions relating to the shaping, shade matching and case selection of aesthetic composite cases.

## Case
